BATHROOM LIGHTING 2024

celebrating 25 years
25
1998 - 2023

sycamoreLED.com

WELCOME TO OUR BATHROOM LIGHTING CATALOGUE FOR 2024

Sycamore Lighting has been at the forefront of lighting innovation since 1998. Our dedication to quality has resulted in sustained growth by offering a diverse range of lighting and the very latest in technology. Major investment in new technologies and personnel, together with state of the art testing and training facilities has enabled us to cross over into different market sectors, whilst also retaining our reputation as a major supplier of lighting and control systems to the KBB markets throughout the UK and Europe.

Our Bathroom range features a stunning collection of LED illuminated mirrors & mirror cabinets. A selection of our mirrors and cabinets are tunable white, enabling users to change the colour of the LED from warm white, natural white or to cool white to suit individual preference or decor. Some also feature Bluetooth Speakers, Shaver Sockets or USB charging ports. We also have a comprehensive collection of LED lighting and lighting control systems for the kitchen & bedroom, please contact our sales department on sales@sycamoreLED.com or 0113 286 6686 to request a copy.

5

YEAR GUARANTEE

5 YEAR GUARANTEE

All of our Bathroom LED Lighting including our mirrors and mirror cabinets featured in this brochure are covered by a 5 year warranty for your peace of mind. This excludes our battery operated lighting, extractor fans, power converters, and accessories.

## TUNABLE LED MIRROR CABINET WITH BLUETOOTH SPEAKER, SHAVER SOCKET, USB CHARGING & DEMISTER

This stunning single or double door illuminated LED Mirror cabinet is part of our Nouveau Noir range of matt black light fittings and accessories, and features a whole host of features. Complete with Bluetooth Speaker, a USB charging port and a built-in shaver socket, the Balmoral covers all requirements.

Internally, the Balmoral has a stylish matt black design, with a mirrored panel on the inside of the door and at the rear of the cabinet, along with two adjustable height glass shelves for storing bathroom accessories. Externally, the cabinets have mirrored panels to both sides, as well as both under and over cabinet illumination for a sleek look.
The diffused illuminated border to the front of the cabinets provides a uniform light output with no dark spots. The Tunable function enables users to choose the most suitable colour temperature for their décor or individual preference, warm white, natural white or cool white. It can also be dimmed to create the desired ambience.

The mirrors stay fog free due to the built-in demister pad, which switches off automatically after 30 minutes. The mirrors also have an IP44 rating making it suitable for use in a bathroom environment.

NEW

Choose from 3000K, 4000K or 6000K by simply choosing your preference using the integrated switch on the front of the fitting. It is also fully dimmable from most standard wall dimmers, and also includes the power converter. The light output is equivalent to a 50W GU10 halogen lamp, but due to the latest LED technology it uses 85% less energy, helping to save money and the environment.

This ultra slim fitting is designed to allow loft insulation to be continuously run over the back of the fitting (IC Rated), and features a speed fit, tool free, loop in - loop out terminal. The colour appearance can be changed at any time without removing the fitting from the ceiling by simply removing the bezel.

NOVA PRO
RECHARGEABLE LITHIUM BATTERY SENSOR LIGHT

CE UK CA ROHS

The new Nova Pro lithium battery light is perfect for situating within cabinets, cupboards or drawers. The unit features a integrated PIR sensor, to automatically turn the light on when movement is sensed within a 4 metre range. When no further movement is detected after 20 seconds, the unit will turn itself off.

It features a slim, discreet profile, with a diffused natural white LED illuminated panel. It is also easily removed from its magnetic brackets for charging. USB-C charging cable included

The battery light will last for one month based on 5 minutes use per day, and takes 2.5 hours to charge from empty to fully charged.

TECHNICAL INFO

Finish	Silver
Lithium Battery	5V
Battery Capacity	600mAh - 2400mAh
Lighting Time	1 Month (based on 5 minutes usage per day without charge)
Re-charge Time	2.5 hours from no charge to full
Charging	Via USB cable (included)
Colour Appearance	Natural White
Colour Temperature	4000K - 4500K
PIR Sensor Max Distance	4m
Guarantee	12 Months

WIRELESS INFRA RED

CE UKCA 🔲 🏠 F W 🗑 ROHS

SENSOR

This new sensor is the ideal solution for wireless motion detection within a bathroom.

The IP54 rated sensor uses passive infra red technology to detect motion and wirelessly switches connected lighting on. It will automatically switch lights off after no further movement has been detected after 30 seconds, however this can be adjusted to suit from 30 seconds up to 60 minutes (requires remote control to enable adjustments). The remote can also adjust the brightness sensitivity from 20% to 100%, with the default brightness setting being 100%.

The sensor detects movement within a 120 degree angle, up to a range of 7 metres. The sensor head is attached to the base magnetically so is very easy to rotate. The base of the sensor is very simple to install using the adhesive pad attached.

Requires one receiver per power converter.

TECHNICAL INFO

Finish	White
Power Supply	12/24Vdc

PASSIVE INFRA RED
SENSOR
This sensor switch offers a discreet surface mounted or recessed solution for automatic switching of 12/24Vdc LED lighting. Connection via the Sycamore plug and play connector system allows connected lights to be turned on when it senses movement within a 3 metre distance at a 120 degree beam angle. The built-in timer can be adjusted from 30 to 150 seconds.

Unit includes connection for up to six lights.

This wireless magnetic door sensor switch can turn lights on and off automatically. The switch is secured to the inside of a cabinet using the adhesive back, whilst the separate magnetic contact button is placed on the inside of the door. When the door closes the connected lights automatically switch off. Opening the door prompts the lights to turn back on.

Up to 4 switches can be run from one controller, making it perfect for switching lights on and off within bathroom cabinets. The switch runs on two 3V button batteries which are very easy to change when required. Unit includes connection for one light, a 6 Way Distribution Block can be purchased separately if required.

EXTRACTOR FANS
AIR-STREAM PRO

The Air-Stream Pro fan has a slim, compact and light design, suitable for bathrooms, en-suites and toilets, Designed to be fitted into walls and ceilings, this modern design is easy to wipe clean and duct over short lengths (2m max). The fan also features an integrated delay timer and a silicon steel motor with built in cut off protection.

This ultra-quiet fan is an ideal solution for removing damp moist air, odours and airborne pollutants.

PART CODE & DESCRIPTION

Air-Stream Pro 4" Extractor Fan Chrome	SY7059CC
Air-Stream Pro 4" Extractor Fan White	SY7059WH
Air-Stream Pro 4" Extractor Fan Black	SY7059BK
Air-Stream Pro 4" Extractor Fan Stainless Steel	SY7059SS

NOUVEAU NOIR

TECHNICAL INFO

Finish	White/Chrome/Stainless Steel Effect/Black
Timer	Yes
Cut Out	105mm
Air Volume (cbm)	74.8
Noise Level (Db)	35
IP Rating	IPX4
Guarantee	2 Years

158mm, 40mm, 158mm, 158mm, 99mm, 81mm
SHOWERLIGHT FAN
WITH LED LIGHT AND TIMER
Highly reliable fan in a modular design for ease of installation and maintenance. The fan light is designed to provide light/extraction over shower cubicles and is manually operated by a remote switch (not included) and also features a timer control. The fan comes with a fixing bracket and is compact and ductable over short lengths (3m).

The kit contains the fan with timer, 3m flex duct, ties, 12Vdc LED lamp in either natural or cool white, chrome and white grilles and an external grille.

BATHROOM REGULATIONS

All installations must comply to guidelines based on the zonal requirements. These regulations apply to domestic installations only.
SycamoreLED.com recommends that all electrical work carried out is done by a suitably qualified electrician in accordance with the current IET wiring regulations (18th edition).

Bathroom lights are classified using an IP (Ingress Protection) rating. The IP characters are followed by 2 numbers which refer to the level of protection against the ingress of foreign bodies (1st number) and protection against the ingress of liquids (2nd number).

Zone 0 - is inside the bath or shower. Any fitting used in this zone must be low voltage (max 12v) and be rated at least IP67 (immersion proof).

Zone 1 - is an area above the bath to a height of 2.25m from the floor. In this zone a minimum rating of IPX4 is required.

Zone 2 - is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. In this zone a minimum of IPX4 is required. Around a wash basin, a radius within 60cm is considered as zone 2.

Outside zones - has no special requirements unless water jets are likely to be used for cleaning purposes.

All zones - any electrical circuits in a bathroom must be protected by a 30 mA Residual Current Device (RCD). Electrical equipment exposed to water jets for cleaning purposes must be at least IPX5.

OUTSIDE ZONE   60cm   OUTSIDE ZONE   60cm
ZONE 2   ZONE 1   ZONE 2   225cm
ZONE 2   ZONE 0
RADIUS   60cm
First digit - Solids						
0	1	2	3	4	5	6
No protection	Protected against touch by hand (50mm)	Protected against touch by fingers (12mm)	Protected against tools and wires (2.5mm)	Protected against tools and small wires (1mm)	Limited dust ingress protection	Total dust ingress protection

Second digit - Liquids								
0	1	2	3	4	5	6	7	8
No protection	Protection against condensation	Protection against water spray 15 degree from the vertical	Protection against water spray 60 degree from the vertical	Protection against water spray from any direction	Protection against low pressure water jets from any direction	Protection against high pressure water jets from any direction	Protection against immersion between 15cm and 1m depth	Protection against long term immersion under pressure

GLOSSARY OF ICONS AND TECHNICAL DATA

Icon	Description
CE	Indicates the compliance with the low voltage and electromagnetic compatibly
UKCA	Indicates the compliance with the applicable requirements from products sold within the UK.
Class I	Class I lighting: includes earth protection as a complementary security measure against electrical shocks
Class II	Class II lighting: includes a reinforced or double insulation as a protection against electrical shocks
Class III	Class III lighting: the protection against electrical shocks comes from the supply of very low voltage tension
F	Suitable for installation on normally combustible surfaces
M	Suitable for use in furniture
For indoor use only	For indoor use only
WEEE	WEEE Compliant
ROHS	ROHS compliant
5 YEAR GUARANTEE	Our products carry a 5-year warranty. This excludes battery operated products, accessories, pendant lighting and power ports. Please refer to our website for further information on our terms and conditions
TUNABLE	This product can be changed from warm/natural/cool white LED using a built in buttons or remote (see individual product spec).
SWITCHABLE	This product can be changed from warm/natural/cool white LED and dimmed using a built-in switch.
Bluetooth	The product features a built-in Bluetooth Speaker to stream music from connected devices.
DIMMABLE	Dimmable using built in controls. (mirrors and cabinets only)
Shaver	This product features a built-in shaver socket.
USB	The product features USB ports for charging purposes. Please see individual specification for further details.
Demister	This product features a built-in demister pad.
Touch	The product will switch on when a built-in button is physically touched. Touch again to turn off.
Wireless charger	This product features a built-in wireless charger for charging compatible devices.
Battery	This product features a rechargeable lithium battery (changed via USB)
Wave sensor	The product will switch on once a hand is waved within a specified distance from the sensor. Wave again to turn off.
Motion sensor	This product will switch on when it senses movement within a specific range, and switch off once no further motion is detected.
Door sensor	The product will switch on connected lights when the door is opened, Close door to switch off.

Colour Appearance and Colour Temperature
The most common terminology is to classify colour temperature as one of three options. These being warm white (approx 3000k), natural white (approx 4000k) and cool white (approx 6000k).

Colour Rendering Index (CRI)
This is a figure that indicates the accuracy of the reflective surface colour of an object when subjected to artificial light. For example an object in daylight on a reasonably sunny day will be subject to a CRI of 100 from the light source, which in this case would be daylight, the sun. Theoretically the colour of an object will be 100% true.

Once the same object is placed into a dark room and a light fitting with a CRI of 85 is illuminating it, then the colour of that object will be 85% of its true colour. Therefore the higher the CRI, the more accurate the colour.

Colour temperature has a bearing on this as a white object would appear "yellow" if illuminated by a warm white light source. Careful consideration has to be taken to ensure that the correct type of light with the correct CRI and colour temperature is selected for any given installation.

A CRI of 80 is the minimum standard.

Total Lumens
This relates to the amount of light (lumens) emitted from a light fitting in relation to the amount of power it uses to create this output. There are now regulations in place that state minimum lumens per watt criteria and any lights that do not conform aren't able to be used in certain applications. Advice should always be taken to ensure that the correct lighting is used on any installation.

Beam Angles
The beam angle of a light fitting allows the installer to determine the spacing of light fittings as to achieve the most uniform, consistent lighting onto the desired area.

Sustainability Matters

At Sycamore Lighting, we understand the need for sustainable products and practices to meet the needs of our current customers & stakeholders, without compromising the ability of future generations to meet their own needs. Please visit our website for our full Sustainability Matters promise.

ERP Directive

ERP Directive effective from 5th December 2019, commission regulation (EU) No 2019/2020 laid down new eco-design requirements for light sources and separate control gears.

Furthermore, the energy labelling was newly regulated and simplified in scope and was introduced for light sources from 1st September 2021.

A typical ERP label is shown.

EnabLED

LEDs and LED controls are the future of lighting, and as LED capabilities continue to evolve and expand, new markets are opening up all the time. Developing new, innovative solutions for tomorrow's new LED applications takes significant investment in research and design, so by joining the EnabLED licensing program, Sycamore LED has gained access to over 490 Signify inventions and patented technologies, which we can now build into our own products. With access to these cutting-edge technologies, we can gain greater freedom to design optimal solutions for our products. We can shorten our time to market and also achieve an excellent balance of cost-to-quality including cost-effectiveness in our component sourcing.

Please visit www.signify.com/enabled to confirm which companies are currently licensed in the scheme and what the EnabLED licensing program covers in more detail.

ENABLED
TERMS & CONDITIONS

1. **DEFINITIONS:** a) The ''seller'' means Sycamore Lighting Ltd. b) The "buyer'' means the person who buys or agrees to buy the goods from the seller. c) The 'goods' means all items which the buyer agrees to buy from the seller.

2. **GENERAL:** Orders are only accepted subject to the Conditions of Sale set out below and the seller shall not be bound by any other terms, written, verbal or implied, or which are conditions customary in the trade and whether contained in customer's order or not. These conditions shall apply unless expressly varied by the seller in writing.

3. **TERMS:** Credit accounts are nett strictly within 30 days. Interest at a rate of 3% per annum above NatWest base rate, together with any expenses incurred in collecting payments, will be added to the agreed price in respect of any part thereof not paid, on or before the due date. Where a new account is to be opened two trade references are required. The seller has the right to discontinue delivery without notice if the buyer defaults in payment, or if circumstances warrant such discontinuance. The seller also has the right to refuse credit terms to a buyer for any reason. Pro-forma orders will only be delivered when the seller has received payment in full, including confirmed clearance of any cheque.

4. **PRICES:** Whilst every endeavour will be made to deliver at the prices quoted, the seller reserves the right to invoice at the price ruling at the date of delivery. All prices are subject to VAT at the rate prevailing at the date of invoice.

5. **RISK AND DELIVERY:** a) Goods are delivered to the buyer when the seller makes them available to the buyer (or any agent of the buyer) at the sellers premises or other delivery point agreed by the seller and risk in the goods passes when they are delivered to the buyer. b) The seller shall not be liable for any penalty, loss, injury, damage or failure in delivery from any cause at all nor shall any such delay or failure entitle for any buyer to refuse to accept any delivery or to repudiate the contract. c) Any dates quoted by the seller for delivery of the goods are approximate only and shall not form part of the contract and the buyer acknowledges that in the performance expected of the seller no regard has been paid to any quoted delivery dates.

6. **CARRIAGE AND ADMINISTRATION CHARGES:** An administration charge of £5.00 will be added to all orders under £30.00. A carriage charge of £8.50 will be added to all invoices on orders of under £150.00 excluding VAT to UK mainland addresses. All offshore islands and EC countries will incur a separate delivery charge, based on the weight of the total order. Please note administration and delivery charges are subject to change without prior notice.

7. **CLAIMS:** Claims must be notified in writing within seven days of receipt, otherwise responsibility cannot be accepted. The seller's liability shall be limited to, at the seller's option, replacing the goods or refunding the price of the goods. Under no circumstances shall the liability of the seller exceed the price of the goods. Replacements for damaged goods will be charged and credit issued on the return of the damaged goods to the seller in the original packaging.

8. **RETENTION OF TITLE:** a) In spite of delivery having been made, property in the goods shall not pass from the seller until payment in full of the price by the buyer. B) Not withstanding delivery, property in the goods shall not pass from the seller until all other sums owed by the buyer to the seller have been paid in full. c) Until payment in full for the goods, the buyer shall hold the goods on a fiduciary basis as a bailee for the seller. d) Whilst the buyer has the right to dispose of the goods in the ordinary course of business on a bona fide sale without notice to the customer of the seller's rights hereunder, the entire proceeds of sale or otherwise of the goods shall be held in trust for the seller until payment in full for the goods. e) Until payment in full for the goods the buyer hereby grants the seller the right to enter any premises where the goods are stored in order to re-possess or inspect them.

9. **BREACH AND INSOLVENCY:** If the buyer breaches any condition of this contract or becomes subject to an Administration Order or becomes bankrupt or has a receiver appointed for or distress is levied on any part of its assets or business or goes into liquidation or makes any composition with its creditors, the seller shall be entitled (whether in respect of this contract or any other) to: a) Withhold any further deliveries to the buyer and/or cancel the contract without liability; b) Appropriate any payment made by the buyer to such of the goods (whether supplied under this contract or any other) as the seller shall think fit; c) Immediate payment of all sums whatever, owing by the buyer to the seller notwithstanding any previous agreement to the contrary; d) Exercise any of its right pursuant to clause 8 above.

10. **PRODUCT INFORMATION:** Although the seller shall use its best endeavours to ensure that the information contained in the seller's catalogue is correct at the time of going to press, the seller shall not be under any liability for any damage, loss or expense resulting from any error or omission contained in the seller's catalogue. Goods supplied may vary in detail from the illustrations, drawings and descriptions (which are approximate and for guidance only) in the seller's catalogue as a result of improvements or modifications. Colour finishes will be maintained as accurately as possible, but matching cannot be guaranteed.

11. **FORCE MAJEURE:** The seller shall not be liable for any default due to any act of God, war, strikes, lock-outs or other industrial action, difficulties in obtaining labour or parts, government or other restrictions or regulations or other event beyond the reasonable control of the seller.

12. **LAW AND JURISDICTION:** All disputes arising out of or in connection with the contract shall be governed by English law and the buyer accepts the jurisdiction of the Courts Of England.

13. **RETURN AND RESTOCKING:** When goods are agreed for a return or cancellation the buyer shall pay a handling or restocking charge to cover administration and inspection charges involved in reprocessing products back into stock. The charge will be subject to change without prior notice but is currently 25% of the invoiced value of the goods. Non standard and special items ordered by the buyer cannot be accepted for return.

14. **GUARANTEES:** Terms and conditions apply to the guarantees, and lamp life of our products. Please refer to our website for further details.

15. **CUT OUT SIZES AND DIMENSIONS:** These are correct at time of printing. We do not recommend any holes are cut until goods are received and checked.

The company reserves the right to alter technical details without prior notification.
