

BERRY  ALLOC

/ wall&water.

_____ walls.

Discover the joy of a Scandinavian lifestyle.

Ready to be inspired?

Enjoy the simplicity and elegance of mother nature by welcoming it inside.

Erase the boundaries between indoors and outdoors.

It doesn't matter if you like traditional, sober, elegant or cozy designs. You'll find the perfect wall panel in our wide range of natural-looking designs.

Designed to create a warm and authentic atmosphere, our wall panels are made for busy, chaotic mornings, and quiet, cosy evenings.

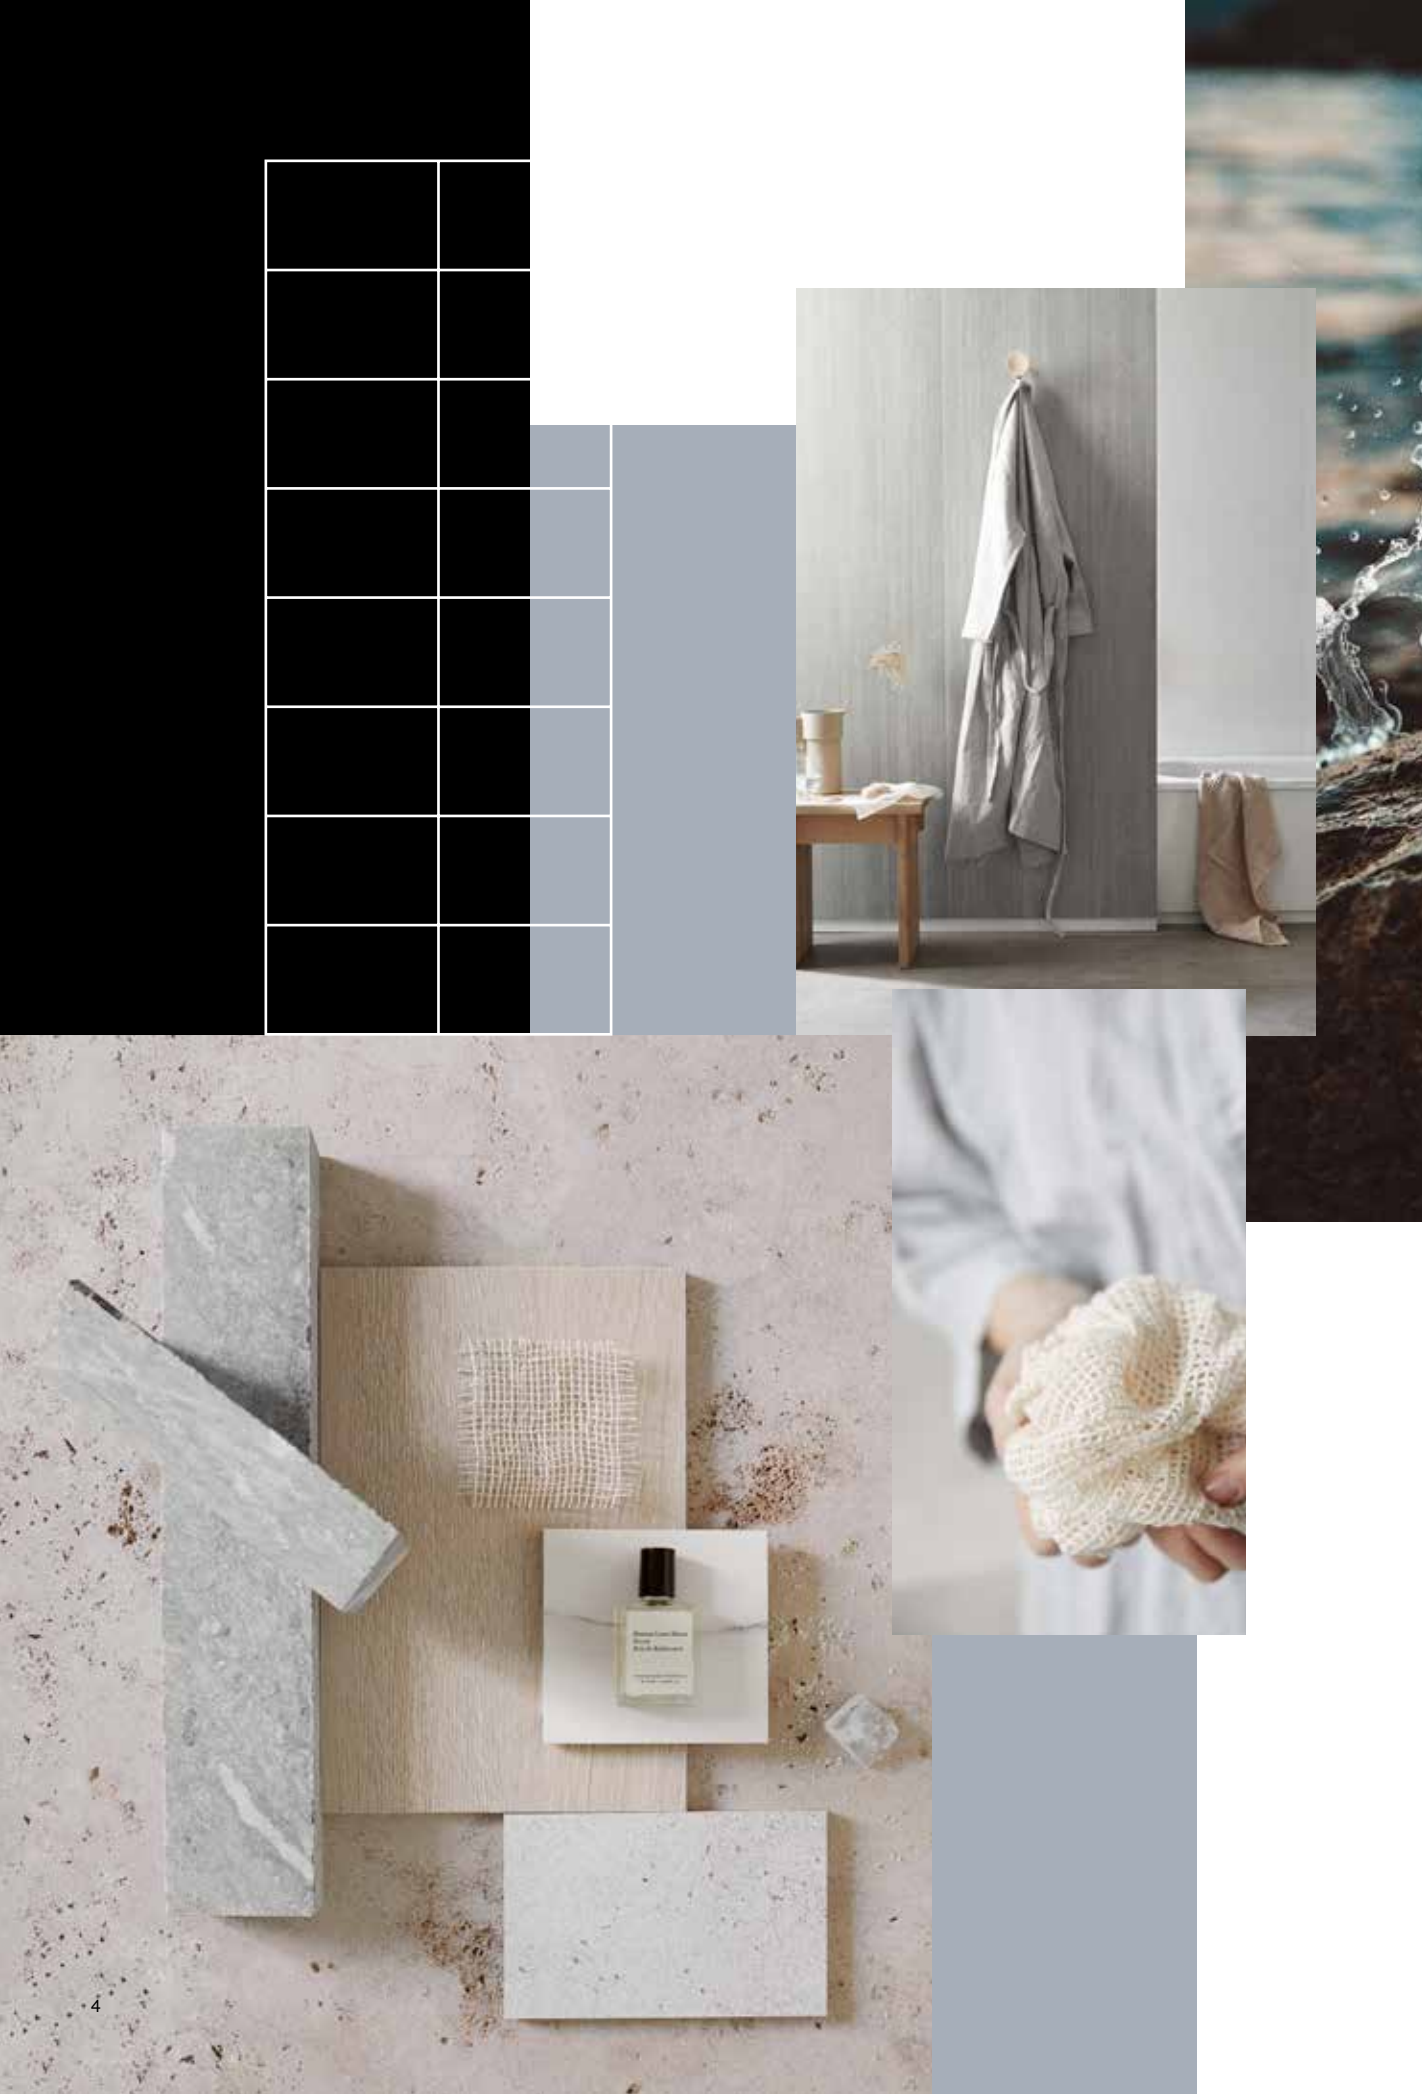

For the kids splashing around and making a mess. For early morning routines and for late-night hot showers. For you.

Live life your way. Our walls will blend right in.

relax, it's BerryAlloc

Why choose Walls	6
Collection guide	28
Installation	32
Accessories	34
Technical overview	37

Why choose Walls?

Nothing beats the feeling of home.

Home is what you make it. That's why our collection of wall panels has a design for everyone. Because we've all made life our own.

Choose from a contemporary range of natural-looking designs and different tile sizes to give your space a new look and feel.

So, if you're on the lookout for a versatile, durable and easy way to renew your bathroom interior ... Look no further.

Turn your bathroom into a private spa. Our walls won't mind.

Go for walls and enjoy...

Lifetime warranty

Just relax, because we promise you a lifetime warranty for every BerryAlloc wall panel in your home.

Fast & easy installation

Glue or interlock, our wall panels combine ease of installation with ease of maintenance. Whether it's your first time or your daily occupation.

Waterproof

Our high-pressure Wall&Water laminate panels can withstand humid and moist environments, making them perfectly suited for bathroom use. Splash around all you want. Our wall panels are made to last.

UV-resistance

Let the sun in and don't worry about discolouring your walls. All our wall panels are UV-resistant. Their design won't change over time.

Environmentally conscious

We take environmental challenges seriously and aim to live up to the demands set for sustainable development. That's why our products are produced, used, recycled and destroyed without damage to the natural environment.

Our walls fit your interior,
your habits, your home.

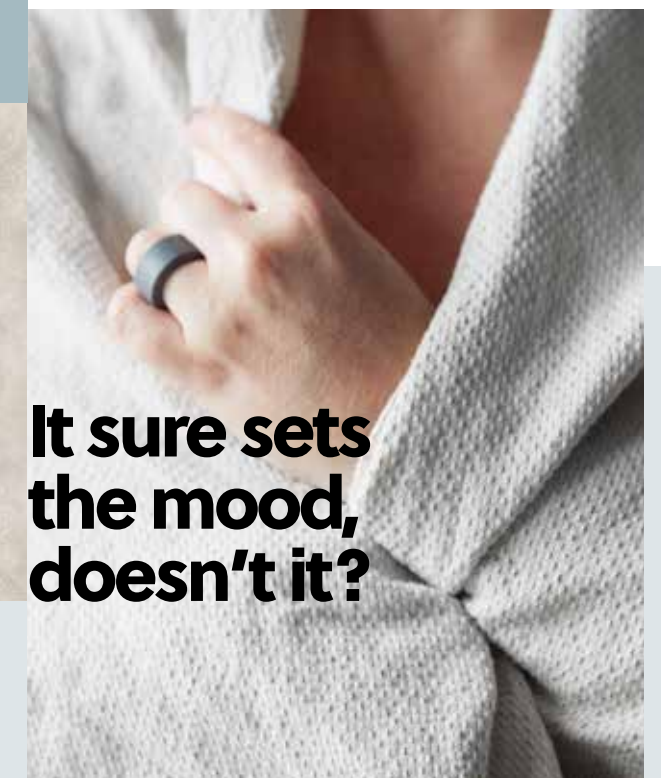

**The choice is yours.
Our collection has a
design that you will love.**

**Breathe in
the charm of
the north.**

Just relax and create
a perfect sense of
well-being with
Natural Slate.

**It sure sets
the mood,
doesn't it?**

The powdery shades of Black Velvet.

The powdery shades of black give Black Velvet its distinct charcoal look. Which, in turn, bathes your bathroom in a masculine touch of understated elegance. Fill up your bathtub and experience absolute privacy while soaking next to the flickering light of a lone candle.

For those who like a sense of peace and quiet.

Our Snow White wall is timeless in style, quietly understated, simple yet sophisticated.

A timeless appeal.

The glossy surface creates a certain balance and order.

Clean crisp lines with a pared-down black and white design.

**Start your
day with a
fresh smile.**

We treat our marble
extra soft, which makes
it rich in details and
keeps it more natural.

Bring some beauty from
outside into your home.
Every single day.

Our designs are
inspired by nature.

**Relax
and feel
surrounded
by nature.**

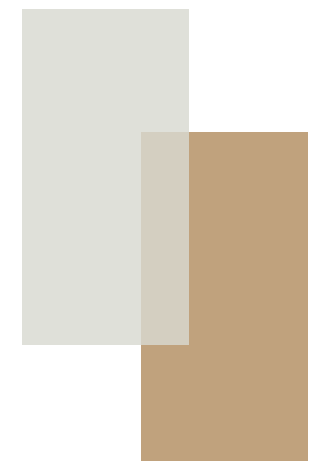

Combine different natural elements for a mood-boosting look and feel.

Use Santorini Marble to make a bold statement.

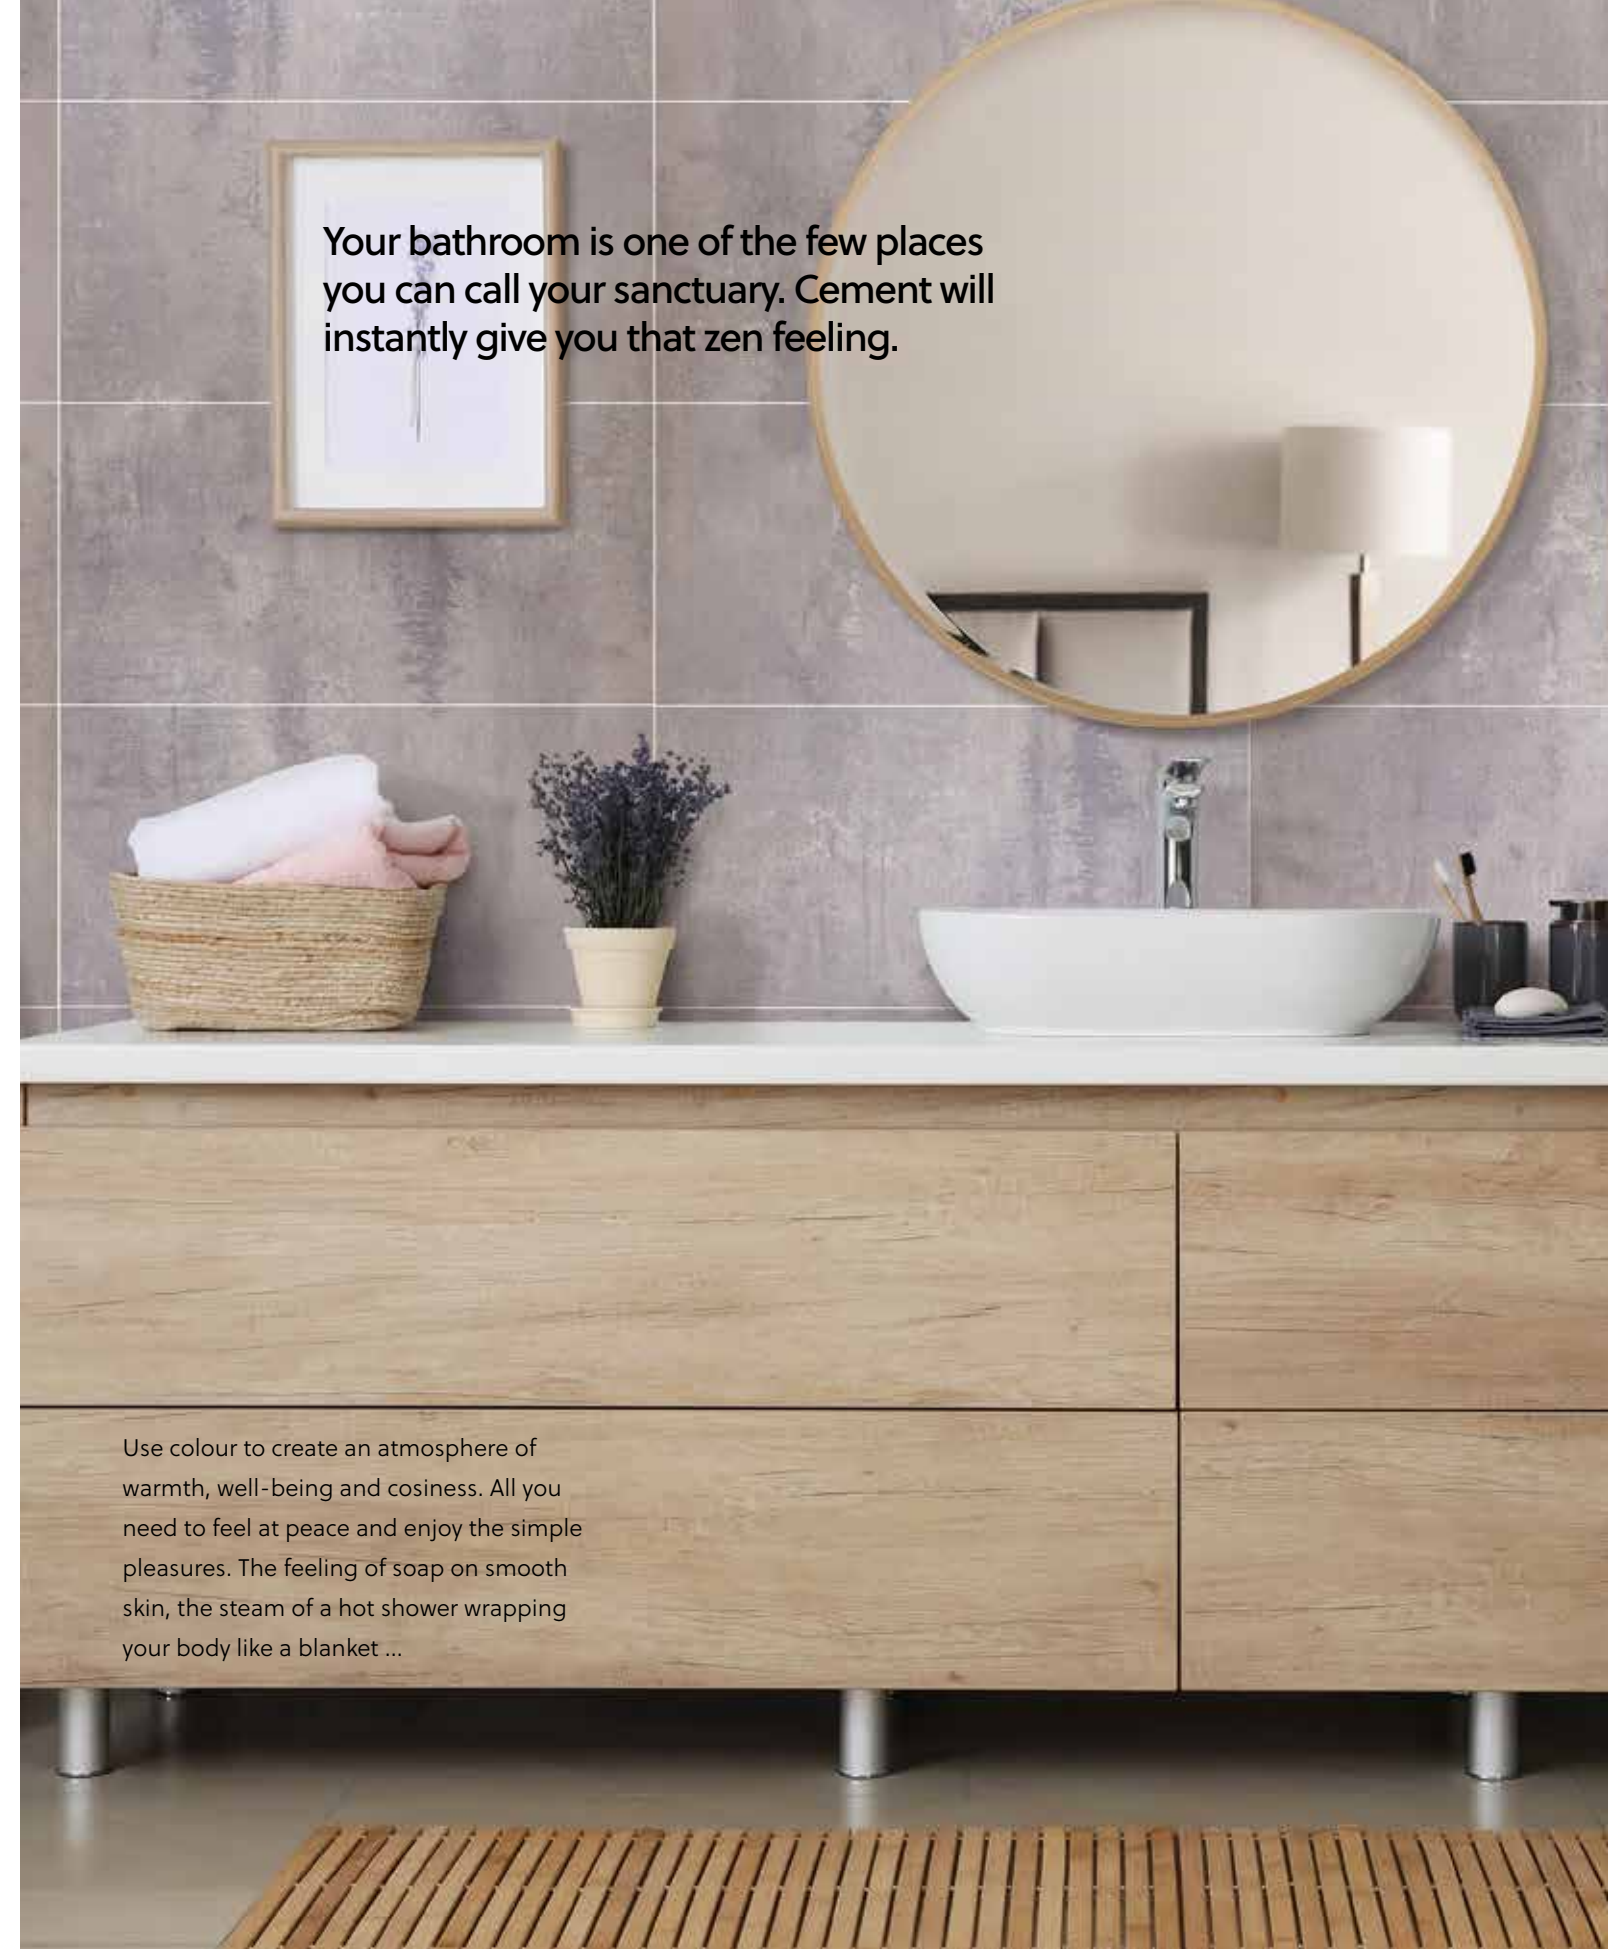

Did you know? Most colours used in Scandinavian interiors are monochrome.

Are you a monochrome traditionalist? Then you know shiny, crisp, and even clinical is the name of the game.

Create your own personal space.

Your bathroom is one of the few places you can call your sanctuary. Cement will instantly give you that zen feeling.

Use colour to create an atmosphere of warmth, well-being and cosiness. All you need to feel at peace and enjoy the simple pleasures. The feeling of soap on smooth skin, the steam of a hot shower wrapping your body like a blanket ...

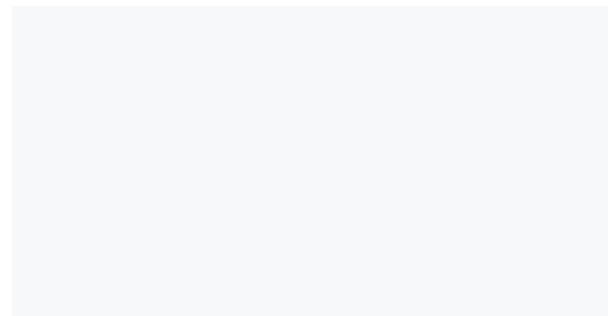

Oh, nostalgia!

Federa has that retro feeling that takes you right back to your childhood – cosy summers at grandma’s cabin and lots of happy, carefree moments.

profiles

Installing your Wall&Water will give you **instant satisfaction.**

Glue or interlock, our wall panels combine ease of installation with ease of maintenance. Wall&Water is the only system in the world offering you the look of a tiled wall this quickly and easily - all without the need for grouting.

The panels can be glued directly onto a solid wall. In this case, the walls must be absolutely straight and smooth.

For walls with existing coverings of varying thickness (such as tiles halfway up), you can fix wooden boards of the same thickness and use BerryAlloc glue.

Wall&Water panels are best mounted onto a wooden frame using screws. The panels interlock thanks to the unique 'lock' system developed at our engineering department in Norway. The result: a smooth wall with no visible joints. Your bathroom will be ready in a splash!

More detailed installation instructions can be found on our website or YouTube channel: berryalloc.com & youtube.com/berryalloc.

The difference is in the details

BerryAlloc Wall&Water panels can be easily installed with our corner profiles.

What finish do you want?

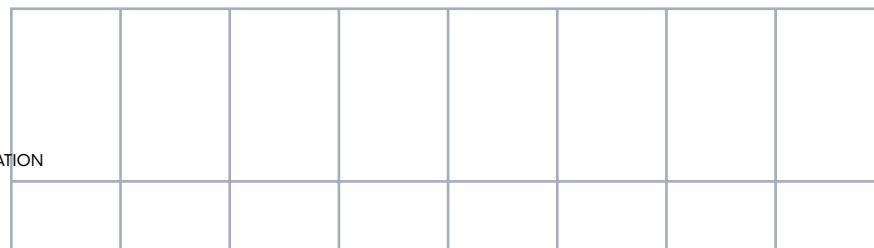

Choose from white or aluminium coloured profiles. For an extra beautiful and natural look, have a look at our hidden Hydroloc profiles.

Aluminium corner profiles

With the unique HydroLoc hidden corner solution you can give your Wall&Water panels a nice corner finish. Making the walls look both natural and professionally finished.

This solution locates the profiles on the back of the panels, resulting in a small visible grout line similar to those on the panels themselves.

accessories. wall&water

Use our accessories for a smooth and simple installation. These accessories seal the edges of the panels, making them suitable for wet areas.

Base profiles

For sealing the bottom of the panel and eases the installation.
